

## How to make a snowman

By: Jessica 1A

1. Go to fill and click on red (#cc0000) and click on the background.
2. Go to shapes and click on the circle and click on the blue (#99ffff) the outline is the same blue.
3. Then make a big circle that is about 2 ½ inches long in the middle of the page.
4. The next circle should be about 2 inches long and put it on the big circle.
5. The next circle is about 1 ½ inches and put it on the middle circle.
6. Now make a circle that is **black** and 1 ¾ long but is ½ cm thick on top of the head.
7. Now make a square that is ¾ inch on top of the oval and together that is a **black** hat.
8. Then put a flower stamp that is 1 ½ cm long and that the line color is blue (#99ffff) that is ¾ inches and put it right in the middle of the hat.
9. Next is the face, make a smile with five black circles that are each ¼ cm diameter and put them ½ cm away from the middle circle's edge. You can make the eyes with two circles. One ½ cm tall and ¼ cm long the second **circle** make about ¼ cm diameter. Next put those two circles ¼ cm below the hat bottom. Now do the nose, do a chili pepper stamp that is yellow (#ffff99) that is 1 ½ cm long but ½ cm tall it is pointing to the right.
10. Now to make a scarf that is purple (#660066) then go to the pencil and go back and forth in between the middle circle and the top circle. Make it about 1 ¼ inch long and ½ cm thick and then for the dangle part do the same thing but it is ½ of an inch and 1 cm thick.
11. Now do the arms if you are not on the pencil click on the pencil. Make sure that you are on black line. Then draw a line that is 3 ½ inches long, on the edge of the middle circle that is in the middle and going diagonal. Then at the end of the line draw three extra lines that is 1 cm and make sure that they connect and that they go diagonal but the middle one goes straight. Do that on both sides.
12. Now for the buttons go to shapes and click on the gear and make three gears that look like flowers but make sure that they have only eight gear cogs and place them in the middle of the snowman and all three are close to the middle circle. Now fill the stamps black and then click on the stamps
13. Now make a cloud that is the first cloud in the top row under the stamp. Make it white and put it by the head on the right side of the head. Type inside the cloud at black and make it size 16 and make it say "Hi what is your name".

And that's how you make my snowman.
